

SMT Wertheim expands activities to Denmark

Gerd Rademann

Starting from May 1st onwards SMT Wertheim, the European leader of thermal systems for the electronics manufacturing (acc. ITM Market Study) cooperates with Gerd Rademann of Rademann Factory Automation in the area of Denmark.

So far Denmark has been a white spot on the area map of SMT Wertheim who are providing not only excellent reflow systems but also many other kinds of thermal treatment systems to the market.

SMT Wertheim is very pleased to cooperate with Gerd Rademann who has an excellent reputation in the area of electronics manufacturing which is based on 20 years of sales and management experience at Panasonic and Viscom AG. Both companies are the global leading brands in the area of placement equipment and solder joint inspection.
